

# Mohamed AbdElhady Elshora

Junior Front-End Developer (React.js)

 mohamedelshora@gmail.com  LinkedIn  GitHub  01127885852  ElMahalla ElKubra

## SUMMARY

Junior Front-End Developer (React.js) with a Bachelor's Degree in Computer Science from **Mansoura University**. Specialized in building scalable web applications using **Next.js, TypeScript, and modern state management**. Proven track record of delivering production-ready features, including secure authentication systems and complex API integrations for E-commerce and Social platforms

## EDUCATION

Computer Science Bachelor's Degree	2019 – 2023
<i>Mansoura University</i> 	Mansoura, Egypt
Student & Trainee Front-End Web	06/2025 – 12/2025
<i>Route Software Development</i> 	cairo
Student & Trainee Front-End Web	2021 – 2022
<i>Instant Software Solution</i> 	Cairo, Egypt

## PROFESSIONAL EXPERIENCE

Freelance Front-End Developer	09/2025 – Present
• Designed and developed responsive websites for diverse clients using HTML, CSS, JavaScript and React.js	

## PROJECTS

E-commerce Platform (Next.js) 	12/2025 – Present
<i>Personal Project</i>	
• <b>Authentication:</b> Integrated <b>NextAuth</b> for secure user lifecycles, including registration, profile management, and password recovery.	
• <b>State &amp; Validation:</b> Leveraged <b>React Hook Form</b> and <b>Zod</b> for robust schema validation and dynamic form handling.	
• <b>E-commerce Logic:</b> Built comprehensive cart functionality and wishlist management with integrated <b>Visa/Cash payment gateways</b>	
• <b>UI/UX:</b> Developed a modern, high-performance interface using <b>Shaden UI</b> and <b>Tailwind CSS</b> .	

Social App 	11/2025
<i>Personal Project</i>	
• <b>Data Management:</b> Implemented efficient server-state handling using <b>TanStack Query (React Query)</b> and <b>Axios</b> for RESTful API consumption.	
• <b>Architecture:</b> Managed global application state via the <b>React Context API</b> and handled client-side routing with <b>React Router DOM</b> .	
• <b>Features:</b> Developed full <b>CRUD</b> (Create, Read, Update, Delete) capabilities for user-generated content and comments.	
•	

Weather App 	10/2025
<i>Personal Project</i>	
Front-End Project   HTML, CSS, JavaScript	
• Developed a responsive weather application that provides real-time weather data for cities worldwide.	
• Integrated <b>OpenWeatherMap API</b> to fetch live weather information.	

- Implemented location-based weather detection.
- Displayed key weather details including temperature, humidity, and conditions.
- Designed a clean, mobile-responsive UI using **HTML & CSS**.
- Added dynamic interactions and logic using **JavaScript**.

**Technologies:**

HTML, CSS, JavaScript, OpenWeatherMap API

**Dashboard for managing student clubs** 

10/2025

*Freelance Project*

Admin panel for managing student clubs, supervisors, enrollment reports, and activity reports.

**Technologies :**

HTML, CSS, JavaScript

**Student club system** 

10/2025

*Freelance Project*

Responsive web app showcasing student clubs and activities with dynamic navigation and interactive UI using HTML, CSS, and JavaScript. Hosted on GitHub Pages.

**Smart Login Project** 

09/2025

*Personal Project*

- Front-End authentication system with login/signup, LocalStorage persistence, form validation, and responsive design using JavaScript.

**Bookmarks Manager** 

08/2025

*Personal Project*

- Developed an interactive web application to save and organize important links efficiently.
- Implemented **add and delete link functionality** with custom names.
- Stored data in **LocalStorage** for persistence across sessions.
- Built a **responsive and clean interface** for both mobile and desktop devices.
- Practiced **DOM manipulation** and structured JavaScript code for maintainability.

**Technologies:**

HTML5, CSS3, JavaScript, LocalStorage

**Quotes App** 

08/2025

*Personal Project*

Interactive web app with dynamic content updates, event handling, and responsive design using JavaScript.

**Daniels Portfolio Website** 

07/2025

*Personal Project*

Responsive personal website with interactive sections, modals, animated counters, and dynamic UI using HTML, CSS, JavaScript, and Bootstrap.
